

clear fixed stars

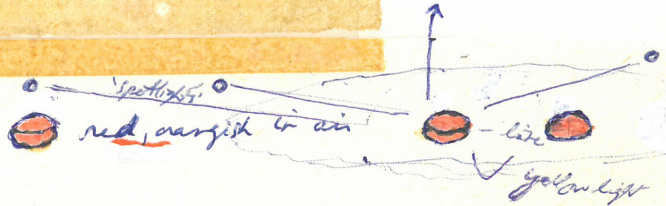

25/1/76

11:35-12 P.M. (total time 1/2 hour)

clear start foggy horizon,
walking Nuss toward empty fields

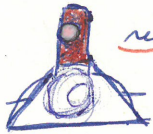

hor

field

 this + a little off center
red light
 white light
 stream of light out of each side

very strong directioning of light

red very shiny strong light (radio transmitter)
 (radiating energy, but within the boundaries)

white metallic shine
 (almost painfully intense)
 (same type as 'flakes' earlier?)
