The list of Recordings

All the UFO-event recordings which I thought were mysterious because of some recording bias of mine, had been extra encoded by the ways the UFOs had shown themselves. They had used a systematic distortion in order to make their message(s) more simple for our human mind or for another reason unknown to me. As if all those witnessed events had been turned with a wrench somewhat counter-clockwise.

Upon awakening, I had the thought, it's like they were whales who had taken the form of machines which could fly, because that would fit our eyes and minds better.
