

a)

Encouragement

The more-developed ET-being had an insect body(!), and was holding a brown staff of literacy. He's a mosquito-like clerk, here shown as a 3-D black hieroglyphic figure, who's giving me encouragement and acknowledgement.

He shows me a list of special related cases' variables of a small phenomenon, factors I'd observed about specific UFOs (4 old events and a 5th new one), each summarized here in a list of 5-digit numbers:

- 1) - a
- 2) - b
- 3) - c
- 4) - d
- 5) - e

b)

Portable Contact Summaries

I was offered to be a contact-person for a series of ongoing UFO-sightings, to be publicized to the world through media articles and the internet. I didn't want so much personal attention, but got an enthusiastic friend of mine in his early 20's to be the voice to the public of this incoming-material. He's going to be the middle-man and live in an isolated shack out in the desert for a while, from which he'll spread the reports, with only his girl-friend visiting him.

To start with, there were 7 separate but related UFO contacts over a short, present-time period of days, and these would continue. The precise information about a UFO-event, containing pictures, numbers, and so on, was contained in a thin, very flexible but fairly tough layer of white material, which was loosely stretched over the top of an almost-empty wooden water-barrel, and which could be removed and transported (being careful not to damage it) to a more secluded location. This info could then be seen under film analysis, chemical analysis, and by other analytic procedures. When the layer had been removed, there was empty room for a new one to turn up on the barrel-top, and until now there have been 7 of these separate layers, labelled 001, 002, etc. to 007.
