Phoned Air Force + they say 24-hour maneuvers the past days, around North Spjalland, can "cheat" with noise at night, + appear at beach as if here while at Sweden - (rescue pass. at back also + police have heliops for traffic-control). ∴ I wonder if all Δs were helicopters landing, flying, signaling, etc + have used to engage emotions/psychic in - considerable degree interpretive causality-distortion shown (assumptions about personal communication) + ease with which fit into previous UFO theories. Dreams, theories, whole mind were affected + logic of former helicopter manathon disregarded.

Same type phenomena as 17/12/75

LESS PRECISE

Such disgust that fell for "helicopters" that stopped star-watching a period, also feel if UFOs were communicating that they lost interest.
